

Interns @ Rochdale Royal Infirmary

Redwood Supported Internship is an effective route to progress towards paid employment for students with SEND on the 6th form 'Employability' pathway. The Supported Internship is a structured study programme with an established base at Rochdale Royal Infirmary.

Supported by an Internship manager and Job Coaches the programme is designed to enable students to achieve sustainable, paid employment by equipping them with the skills they need for work through learning in the workplace.

We immerse our interns gradually into the world of work, giving them the skills, they need to work independently while breaking down stereotypes at every stage. Our internship based at Rochdale Roy builds on the skills already developed during work experience and pre-internship, including time management, organisation and interpersonal skills that are necessary to secure and accomplish a paid job.

Interns at Rochdale Royal Infirmary have the opportunity to work in a variety of employment sectors such as Hospitality, Catering, Retail, Cleaning and Administration. Employability skills developed whilst working within the NHS Trust lead to 82% of interns gaining employment in a variety of job sectors across Manchester in 2021.
