

"Where every person matters"

ER/ab

16th Spetember 2019

Dear Parent/Carer,

Last year we used an excellent Mathematics' resource called My Maths for home learning, during lessons and lunchtime clubs. This resource contains many examples and tips to support our young learners, as well as interactive games and homework tasks. My Maths can be accessed from any computer, laptop or mobile device which has internet connection.

To access the resource please log into mymaths.co.uk then enter the details below:

Username: **redwood1**

Password: **rectangle134**

All our young people will have an individual log in from their Maths' teacher to enable them to complete and save individual homework tasks. We are trying to promote more home learning amongst our young people and hope that you will support us with this.

If you have any queries about how to use this resource, please do not hesitate to contact me on the school telephone number or my school email:
emily.schofield@redwood-school.com

Yours sincerely

Emily Richardson

(Head of Maths)
