All operators are trained in their responsibilities under the CCTV Code of Practice. All employees are aware of the restrictions in relation to access to and disclosure of recorded images.

3. Camera Locations

3.1 Cameras are sited so they only capture images relevant to the purposes for which they are installed and care will be taken to ensure that reasonable privacy expectations are not violated. The School has ensured that the location of equipment is carefully considered to ensure that images captured comply with the Data Protection Act & GDPR.

Further Information

The CCTV system and the images produced by it are controlled by The IT Manager who is responsible for how the system is used and for notifying the Information Commissioner about the CCTV system and its purpose (which is a legal requirement of the Data Protection Act 1998 & GDPR 2018).

The school has considered the need for using CCTV and has decided it is required for the prevention and detection of crime and for safeguarding and protecting the safety of staff, students and visitors.

The school will conduct regular reviews of our use of CCTV in consultation with the headteacher.
